

Government of India
Ministry of New & Renewable Energy
Concentrating Solar Technologies Division

Subject: Advising Manufacturers/ Entrepreneurs/ Channel Partners/ Beneficiaries of CSTs to get their products/ systems tested at Test Facilities developed in the premises of School of Energy Studies, University of Pune and National Solar Energy Institute (NISE), Gurgaon

Under UNDP-GEF CSH project of the Ministry of New & Renewable Energy, Test Set ups for testing of Concentrated Solar Technologies (both for steam and thermal fluid based systems) have been established at School of Energy Studies, University of Pune and National Solar Energy Institute (NISE), Gurgaon. The test set ups are in operation since October 2014.

All the manufacturers/ channel partners and entrepreneurs who are in the field of manufacturing of CSTs are advised to avail these facilities and get their products tested by bringing the CSTs at test facilities. No testing fee may be charged for testing the CSTs at these facilities till the UNDP-GEF project is in operation i.e 31st March, 2017. Mobile test facilities are also available which could be used for testing of CSTs/ CST based systems in the field/ manufacturers' works for which a reasonable fee will be charged except for those places where systems have been installed with subsidy from MNRE.

Following may be contacted for this purpose:

- i) Prof. S. P. Ghaisas, Head, School of Energy Studies, University of Pune
(E-mail: hodenergy@unipune.ac.in; Mobile: 09422311936)
- ii) Mr. S. K. Singh, Director/ Scientist 'F', NISE Gurgaon
(E-mail: sk_sudhir100@yahoo.co.in; Mobile : 09711112801)
